

Love Will Save the Day

Whitney Houston

Sometimes life can make you crazy
It can really put your body to the test
You try so hard to make sure everything goes right
And you find you've only wound up with a messIt's a common situation
Even though you feel abandoned and alone
Child, you ain't the first to experience the hurt
So don't panic when you hit the danger zoneWhat you need's a little change of heart
Forget this fear and frustration
Love will always play the greater part
When your battles wear you down
Here's my adviceWhen you're feeling down and out
And you've got troubles on your mind, love will save the day
When you're feeling full of doubt
And fear has got you in a bind, love will save the dayWhen your world's falling apart
All you have to do is say a prayer, and love will save the day
There's an answer in your heart
So let your light shine on, my dear, and love will save the dayLove will save the day
Love will save the day
Love will save the day
Love will save the dayMany things in this world bring you down
It's a wonder you can make it through the day
Well, you can't sleep 'cause your problems are too deep
And there's always something getting in the wayAnd when you turn on the evening news
Mass confusion is the only thing you see
Well there's no question that we need a new direction
'Cause we all could use some peace and harmonyWhat you need's a little change of heart
Forget this fear and frustration
Love will always play the greater part
When your battles wear you down
Here's my advice, here's my adviceWhen you're feeling down and out
And you've got troubles on your mind, love will save the day
When you're feeling full of doubt
And fear has got you in a bind, love will save the dayWhen your world's falling apart
All you have to do is say a prayer, and love will save the day
There's an answer in your heart
So let your light shine on, my dear, and love will save the dayLove will save the day
Love will save the day
Love will save the day
Love will save the dayAnd love is gonna save the day

You've gotta believe it
You've gotta believe it, y'allSo if you needs a little change of heart
Forget this fear and frustration
'Cause love will always play the greater part
When your battles wear you down
Here's my advice, here's my adviceWhen you're feeling down and out
And you've got troubles on your mind, love will save the day
When you're feeling full of doubt
And fear has got you in a bind, love will save the dayWhen your world's falling apart
All you have to do is say a prayer, and love will save the day
There's an answer in your heart
So let your light shine on, my dear, and love will save the dayWhen you're feeling down and out
And you've got troubles on your mind, love will save the day
When you're feeling full of doubt
And fear has got you in a bind, love will save the dayWhen your world's falling apart
All you have to do is say a prayer, and love will save the day
There's an answer in your heart
So let your light shine on, my dear, and love will save the dayLove will save the day
Love will save the day
Love will save the day
Love will save the day
