

# Mining for Gold

## Cowboy Junkies

We are miners, hard rock miners  
To the shaft house we must go  
Pour your bottles on our shoulders  
We are marching to the slow On the line boys, on the line boys  
Drill your holes and stand in line  
'til the shift boss comes to tell you  
You must drill her out on top Can't you feel the rock dust in your lungs?  
It'll cut down a miner when he is still young  
Two years and the silicosis takes hold  
And I feel like I'm dying from mining for gold Yes, I feel like I'm dying from mining for gold
