

My Beautiful Life

Ferras

It's a beautiful life
What does it mean to you
It's a beautiful life
Verse:
Then i awake up
Wonder where my clothes are
Try to find some more stars
And i'm stuck with the same old thing
That i always dream
I light a cigarette
And it's not right
Where's my ashtray
Where the hell did i put my coffee
I can't find anything
One thing goes wrong
And then another
It's a beautiful life
Thank you mother
And i've got nothing to lose
It's the same game
It's a beautiful life
It's a beautiful life
Chorus:
When i'm up in the air
When i'm down on the floor
I can use a sharper knife
Is there anything else
Is there anything more
This is my beautiful life
And the poetry's crushing me
This is my beautiful life
Verse:
I put my clothes on
To the ground near me
Does anyone know
Has anyone found me
I guess i'll just have to wait
Until the next life
Hang around for the next laugh

I'm part of something
The bigger part of nothing
And i'm debating
Do i even like me
And everybody's trying so hard
To be so cool
But you know what's cool
Not trying
Chorus:

When i'm up in the air
When i'm down on the floor
I can use a sharper knife
Is there anything else
Is there anything more
This is my beautiful life
And the poetry's crushing me
This is my beautiful life
Mid:

I'm crawling across
And i can't get out
Will it wash me away
The currents pulling me down
I was looking for love
But it's never around
Come on help me out
One more time

Bridge:
And i was hoping
Someone would need me
It's a beautiful life
Everything's broken
Just as it should be
But it's beautiful to me
Chorus:

When i'm up in the air
When i'm down on the floor
I can use a sharper knife
Is there anything else
Is there anything more
This is my beautiful life
And the poetry's crushing me
This is my beautiful life
End:
It's a beautiful life

This life
It's a beautiful life
It's mine
My beautiful life
Such a beautiful life
Your life
It's a beautiful life
