

Finally

Toni Gonzaga

I've never felt this way
Falling in love like in the Shakespeare's play
Feeling the magic of love
I had my shares of love
But you're the one I can't live without
Wanting more & more of your smile
PRE-Everything you do
Everyday with you
Every moment is forever
Everytime I'm with you
It brings me closer to heaven
Finally reality is better than my dreams
Finally oh finally it happened to me
Could it be the sparkle in your eyes
Or the magic of your smile
Finally I've fallen in love
I will even stand and wait
For the world's longer queue
Just for a moment with you
I could search my whole life through
And never find another you
You're the only one in my life
PRE-Everything you do
Everyday with you
Every moment is forever
Everytime I'm with you
It brings me closer to heaven
Finally reality is better than my dreams
Finally oh finally it happened to me
Could it be the sparkle in your eyes
Or the magic of your smile
Finally I've fallen in love
Finally reality is better than my dreams
Finally oh finally it happened to me
Could it be the sparkle in your eyes
Or the magic of your smile
Finally I've fallen in love
I've fallen in love
