

# Bed on Fire

Butch Walker

And oh, you got a lot of nerve  
Making me want you so bad  
You never make this easier  
So hard to have And no you never will know this  
But you are already my kill  
so baby fire at will Gonna take you down  
Over my knees  
Make that sound  
Make you seize  
Untie your hair  
Let it fall  
Like morning rain  
Bed on fire  
Love in flames  
A hundred times  
Make you say my name  
Lay in shock with me  
Till the darkness ends  
And we'll do it again You walk right by me every day  
And you leave me for dead  
The puddle of my sweat just standing in  
Water of my sin And no you never will know this  
But you are already my kill  
so baby fire at will Gonna take you down  
Over my knees  
Make that sound  
Make you seize  
Untie your hair  
Let it fall  
Like morning rain  
Bed on fire  
Love in flames  
A hundred times  
Make you say my name  
Lay in shock with me  
Till the darkness ends  
And I'll do it again Oh I'll take you down  
Over my knees  
Make that sound

Make you seize  
Untie your hair  
Let it fall  
Like morning rain  
Bed on fire  
Love in flames  
A hundred times  
Make you say my name  
Lay in shock with me  
Till the darkness ends  
And do it again
