

# Skeleton Trick

## Echo Orbiter

Trouble with Brains,  
The itch becomes to prevalent to focus elsewhere  
Is Chris, his promises crash and keep the writers waiting for  
Stories untold, fiction unfolds, and legal action set in motion.  
Calm down, the trouble with bones is they rattle when you get nervous.

### Skeleton Trick

Tornado touchdown,  
Leaves and sticks encircle the disaster zone.  
Whereâ€™s the words that he could use, encouragement and sympathy.  
The page is blank, comatose pen; dry but try again.  
Rearranged, the trouble with eyes is you canâ€™t see what is coming.
