

# Faithless

## Sevendust

Don't run away  
The gift of life is never promised for today  
Why burn the page again(Don't throw it away) [x8][Chorus:]  
Found my way  
Through the eyes of hell  
And now I found my faith  
That I lost on the faithlessWe try to change  
But then we wait forever  
Searching for a way  
To turn the page again(Don't throw it away) [x8][Chorus:]  
Found my way  
Through the eyes of hell  
And now I found my faith  
From the things that I lost from the faithlessThe burning ends, you come around  
So step back for the answer  
Lift yourself up slowly  
It's taken everything  
(Don't you throw it away)  
The burning ends at least for now  
(So I resist, you go on, days are lost  
Can't change a thing  
Life hangs on for all days)  
But no real place to go but I forgive  
Life hangs on(Don't throw it away) [x8][Chorus:]  
Found my way  
Through the eyes of hell  
And now I found my faith  
From the things that I lost from the faithlessThe burning ends, you come around  
So step back for the answer  
Lift yourself up slowly  
It's taken everything  
(Don't you throw it away) [x2]
