

# To the Skies

## Everyday Sunday

Hook:

We are children of the light  
Royal rulers of the day  
Saints, no prisoners of the night  
Trust and love will lead the way  
We are free

Verse 1: (Lecrae)

Yeah, I notice when people notice me  
My exterior is the only way they know it's me  
I'm full of holes and scars, my skin's marked up  
But qualified to light up a world of darkness  
A day walker, I love walkin' in the sunlight  
I look dirty but I've been cleaned on the inside  
It's revolutionary, he's coming now for fellas and they can look at us strange  
But ain't nothing that they can tell us, cause

(Hook)

Verse 2: (Sonny Sandoval)

Yeah, I'm free to rock this mic to walk right in a dark night lighted by the sun (we are free)  
I'm so free that I can fly while ya'll can't even crawl into a ball of freedom  
In my life I count the cost I take lost accused of treason  
And I could die for this cause and you might just be the reason  
And in order to if I must die it's denial of self  
And if you claim to be the way that means there ain't no one else  
I trust it, done, there ain't no room for discussion  
So if you just don't get it then let the just come with it  
I know that much more is required of all that I've been given  
But if ya'll claim to be alive then you gotta start livin  
You know why

(Hook)

Verse 3: (Dillavou)

And him the only one to take me out of Babylon  
And him create me right and wrong  
And him create me script and song  
And that's why we stand firm upon the rock on which salvation, man  
And so we love the prospect and hope to put our helmet on

And that is why we build upon for each and every chosen one  
Respectful to the elder-men who give guidance and correction  
So don't you quench the spirit man  
The Word is truth, the Word is one  
The Messiah give you Shalom
