

Torn

LeToya

A part of me wants to leave you alone
A part of me wants for you to come home
A part of me says I'm livin' a lie
And I'm better off without you A part of me says to think it through
A part of me says I'm over you
A part of me wants to say goodbye
A part of me is asking why A part of me wants to leave
But a part of me wants to be here with you
And every time I think that we're over and done
You do something that gets me back lovin' you
And you got me just torn Torn in between the two
Cause I really wanna be with you
But something's telling me I should leave you alone
Leave you alone, leave you alone And you got me just torn in between the two
'Cause I really wanna be with you
But something's telling me I should leave you alone
Leave you alone, leave you alone What hurts the most is when we started out
It was cool, it was everything that love's about
But something happened cause I'm feeling so burned out
Because I can't understand you now
(I just can't understand you now) A part of me says it's all my fault
A part of me says he ain't what you want
A part of me says to get my bags
A part of me says I can't do that A part of me wants to leave
But a part of me wants to be here with you
And every time I think that it's over and done
You make me fall back in love
You got me just torn Torn in between the two
Cause I really wanna be with you
But something's telling me I should leave you alone
Leave you alone, leave you alone And you got me just torn in between the two
Cause I really wanna be with you
But something's telling me I should leave you alone
Leave you alone, leave you alone So many times I, I was ready to go
So many times I, had my foot out the door
So many times I, I thought to give him a chance
Thought he'd be a better man Now I'm sitting here and I'm so confused
Cause I keep fighting myself for you
I don't know how much more I can take

But I can't feel this way
You got me so torn! Torn in between the two
Cause I really wanna be with you
But something's telling me I should leave you alone
Leave you alone, leave you alone You got me just torn in between the two
Cause I really wanna be with you
But something's telling me I should leave you alone
Leave you alone, leave you alone You got me just torn in between the two
Cause I really wanna be with you
But something's telling me I should leave you alone
Leave you alone, leave you alone And you got me just torn in between the two
Cause I really wanna be with you
But something's telling me I should leave you alone
Leave you alone, leave you alone You got me just torn in between the two
Cause I really wanna be with you
But something's telling me I should leave you alone
Leave you alone, leave you alone And you got me just torn in between the two
