Top Of The World

Bruno Mars

[Verse 1:]
You thought I was weak and was vulnerable
But I am free and I'm powerfull
Thought I was alone and pitiful
But I am strong, individual

[Pre-Chorus:]
You thought I'm on my way down
But I'm on a rebound
Thought I was falling
But I got my feet on solid ground
I just believe in myself

[Chorus:]
That's why I'm standing on top of the world now
And no there ain't nothing gonna bring me down
I'm just gon' keep on going living every moment head up high
That's right
I'm standing on top of the world now
And don't you ever think you're bringing me down
You can hate, You can take
You can try your best to break me
But I'm on top of the world

I'm on top of the world

[Verse 2:]
Thought on you I could rely
But you let me down
But then there were you lies
And I caught you out

[Pre-Chorus:]
You thought I'm on my way down
But I'm on a rebound
Thought I was falling
But I got my feet on solid ground
I'll keep believin' in myself

[Chorus:]

That's why I'm standing on top of the world now
And no there ain't nothing gonna bring me down
I'm just gon' keep on going living every moment head up high
That's right
I'm standing on top of the world now
And don't you ever think you're bringing me down
You can hate, You can take
You can try your best to break me
But I'm on top of the world

I'm on top of the world

[Bridge:]
You thought I'm on my way down
But I'm on a rebound
Thought I was falling
But I got my feet on solid ground
And I'm getting stronger
I'm gon' be here for longer
I'm never gonna doubt myself

[Chorus:]
That's why I'm standing on top of the world now
And no there ain't nothing gonna bring me down
I'm just gon' keep on going living every moment head up high
That's right
I'm standing on top of the world now
And don't you ever think you're bringing me down
You can hate, You can take
You can try your best to break me
But I'm on top of the world

I'm on top of the world
