

# I Taught Her Everything She Knows

## Alabama

Don't she look good on the floor  
Moving so slow  
Look how she's looking at him  
And dancing so close  
There's not a man in the crowd  
Who wouldn't like to hold her right now

[Chorus]

I taught her everything she knows  
About love  
So why is she looking at him  
Like I ain't enough  
I wonder if I didn't teach her a little too much  
Cause I taught her everything she knows about love

Well someone just sent her a note  
With a bottle of wine  
When I asked her who was it from  
She said "It wasn't signed"  
Maybe I shouldn't give it much thought  
But I know how well she's been taught

[Chorus]

I'm used to guys looking at her  
But now she's looking too  
I taught her everything about love  
Now she's looking to find something new

[Chorus]

I taught her everything she knows about love

[Chorus]
