

Florets

Grace VanderWaal

I wanna wake up
In a dream, dream, dream
But the air is soft
To breathe, breathe, breathe Hold on and don't let go
If you fall down, then you should know
That we could just be Blowing florets
I want to dance in the air
Blowing florets
And just not care about anyone or anything
But you and me So don't let go of me
Don't let go of me
And rise up, like the trees, trees, trees
And let go of all responsibilities
And we could just be Blowing florets
I wanna dance in the air
Blowing florets
And just not care about anyone or anything
But you and me So don't let go of me
Don't let go of me Wherever the wind blows
Ever the wind blows
Don't let go
Wherever the wind blows
Ever the wind blows
Don't let go
Blowing florets
I wanna dance in the air
Blowing florets
And just not care about anyone or anything
But you and me Don't let go of me, oh oh, oh oh
Don't let go of me
Don't let go of me Wherever the wind blows
Ever the wind blows
Don't let go
Wherever the wind blows
Ever the wind blows
Don't let go
