

# Vacation to Violation

## Total Chaos

Have a blast on your vacation  
Next you know you're in violation  
Now your mind is in desparation  
To come up with my explanation  
Now the cops want you in jail  
    With no money  
    You have no bail  
You don't want to be in a cell  
You put up a fight so you can bail  
    Vacation to violation  
The party's over you're in jail  
    With no money  
    With no bail  
Now you're free you're out of jail  
You got the money so you can bail
