Close Your Eyes

Wayne Wonder

Sometimes it's stressful, but I gotta end all the painGotta, gotta, get, get, get away
Woo, woo
Gotta, get, get, get, get, get, get, get, get, get awayClose your eyes spread your wings and fly
Baby, you and I elevate in mind
Way up to the skyBaby, you and I, let's get away on the wings on love
Let's fly away like a pair of bottled doves
Let's get away on the wings on love
Let's fly away like a pair of bottled dovesThey keep watching every move I make
Still yapping, what they don't know so they speculate
Is it shocking? Don't you know I always set the pace
Steady mopping, I leave no evidence, I leave no traceClose your eyes, spread your wings and fly
Baby, you and I elevate in mind
Way up to the skyBaby, you and I, so amazing sunshine in the rain
Stimulating, every nerve up in my brain
My hearts is pulsating feels like I'm gonna go insane
Sometime frustrating but I must endorse the painClose your eyes, spread your wings and fly
Baby, you and I elevate in mind
Way up to the skyClose your eyes, spread your wings and fly
Baby, you and I elevate in mind
Way up to the skyGet, get, get, get, get, get, get, get
Get away, soClose your eyes, spread your wings and fly
Baby, you and I elevate in mind
Way up to the skyClose your eyes, spread your wings and fly
Baby, you and I elevate in mind
Way up to the skyClose your eyes, spread your wings and fly
Baby, you and I elevate in mind
Way up to the skyClose your eyes, spread your wings and fly
Elevate in mind
Way up to the sky
