No Love

Exodus

come into my home
black master rules the night
see the power start to surge
upon a hellish sight
it's time to raise them up
up from below the grave
white bones glow savagery
provide the light we craveturn to look at baphomet
from below and not above
welcome to my sacrifice
tonight there'll be no lovethe darkness is my lover
she makes he feel strong
take what I wamt, when I want
at night I do no wrong
when I walk the streets:
got loki on my side
slit your throat, drink your blood
who cares when others dieturn to look at baphomet
from below and not above
welcome to my sacrifice
tonight there'll be no love
