# Atlantis

## Starfucker

You are the angel
I am the astronaut
You painted pictures on the fields
Dreaming your life away

Let me out
Water rising all around
Laying with my head down in the past
You knowing that I dont stand a chance

Come on Atlantis
It makes me sad to think of home
Sing me that song once more before
We all die alone and lonely, lonely, lonely

Let me out
The water rising all around
We barely know what happened in the past
You know that I dont stand a chance
---
