

# Milky Way

KITARO

You must have your wires crossed  
I know you think alot  
Because I think alot  
When I'm not with youBut you'll never see her name next to mine  
Written in the milky way like ours is  
She couldn't be you if she tried  
She couldn't be you if she triedIf I'd have wanted that  
I'd have time to go after it  
You know I think alot  
Because you do tooBut you'll never see her name next to mine  
If you were gonna then you would of by now  
She couldn't be you if she tried  
She couldn't be you if she tried
