Please Don't Let Me Love You

Hank Williams

Oh, please don't let me love you
Just because I'm feelin' blue
And please don't let me kiss you
'Cause I know you'll be untrueBecause you're a sweet dear, I want to love you
Please stay away from my heart
And please don't let me love you
'Cause I know you'll break my heartOh, please don't call me darling'
When I know you don't love me
And please don't whisper sweetheart
For I know it just can't beWhen I'm lonely, I want you only
Where is the dream I once knew
Oh, please don't let me love you
'Cause I know you'll be untrue
