

Tools Of The Trade

Charlie Worsham

Steel skin clips, forceps, grooved awl
Retractors, needles, gouges and saws
Intestinal clamps, blunt dissectors
Scalpels, pins, toothed directors Tools of the trade, forceps and blades
Skillfully lathed, for us to maim Bone levers, spikes, malleable scoops
Plates and chisels, screws and spoons
Drills, raspatories, files and dures
Guillotines, gags and compression forceps Tools of the trade, ripping the rib-cage
To remissly lustrate, so pleased to maim Retractors, mallets, rugines and benders
Chisels, rods, sharps and catheters
Trepines, undines, irons and styrops
Depressors, tongues, sterile catgut Tools of the trade, stainless steel blades
Painstakingly lathed, we're so pleased to maim
