

# Bitter Pill

Billy Idol

Riding down this road  
Like I've ridden down a million  
I've run thru every roadblock in this town  
I laughed at all the signs  
They say speed will kill ya'  
It took you to slow me down  
And I've forgotten  
How to fly  
But I'll remember  
Before I die  
It's a crooked line I follow  
It's a rocky road I ride  
It's a bitter pill I swallow  
Just to keep you by my side  
Oh my  
I'm driving without sleep  
Like there just ain't no tommorow  
Because misery is always colorblind  
I've taken every remedy for ignorance and sorrow  
Something to cure this wicked mind  
And I've forgotten  
How to fly  
But I'll remember  
Before I die  
It's a crooked line I follow  
It's a rocky road I ride  
It's a bitter pill I swallow  
Just to keep you by my side  
Just to keep you satisfied  
And I've forgotten  
The reason why  
But I'll remember  
  
Before I die  
It's a crooked line I follow  
It's a rocky road I ride  
It's a bitter pill I swallow  
Just to keep you by my side  
Just to keep you satisfied

It's a crooked line I follow  
It's a rocky road I ride  
It's a bitter pill I swallow  
Just to keep you by my side  
Just to keep you satisfied  
Just to keep you by my side  
Satisfied  
Satisfied  
It's a wicked world baby  
I'm riding down this road  
Like I've ridden down a million  
I've run thru every roadblock in this town  
I laughed at all the signs  
They say speed will kill ya'  
It took you to slow me down  
A hit of you to slow me down  
It took you to slow me down  
A hit of you to slow me down  
It took you to slow me down  
A hit of you to slow me down  
It took you to slow me down, baby  
A hit of you to slow me down  
It took you to slow me down
