whoknows

Burbuja

Now what we came here to do
It means more to me than just a night
That we'll share
So make sure that youre prepared, babyAnd know that love is not just something to do
Its the moment that transcends
Our physical into a more
Spiritual level of understandingAnd who knows
Somehow this night
Just might lead us into a place
Where our emotions can grow if we let them go'Cause who knows what may happen
If we act on our attractions and lose ourselves
Inside a world made for us and no one else
Hey girl, just let me love youNow aint no need to be afraid
'Cause Ill be as gentle as it takes
To provide you with the right amount of
Pleasure and pain and IllMake sure that you feel alright
Even if it takes me all night
'Cause the joy is all mine
When I know youre satisfied
So lets keep giving all we gotWho knows
Somehow this night
Just might lead us into a place
Where our emotions can grow if we let them go'Cause who knows what may happen
If we act on our attractions and lose ourselves
Inside a world made for us and no one else
Hey girl, just let me love youListen, now I can see it in your eyes, yeah
(I can handle whatevers on your mind)
That you want to baby just as bad as I do
And girl I wanna give it to you
Now if you can just set aside your fears
And just try to deal with whats going on with us right now'Cause who knows
Somehow this night
Just might lead us into a place
Where our emotions can grow if we let them go'Cause who knows what may happen
If we act on our attractions and lose ourselves
Inside a world made for us and no one else
Hey girl, just let me love youWho knows
Somehow this night
Just might lead us into a place

Where our emotions can grow if we let them go'Cause who knows what may happen
If we act on our attractions and lose ourselves
Inside a world made for us and no one else
Hey girl, just let me love youOh baby, girl
Come on and just let me love you
Just let me love you
Hey girl, just let me love you
Just let me love you
