How Many Say I

Van Halen

Are you ever so silent, when she wanted to talk?
Or couldn't keep quiet, when she needed a hug
Come on too strong, when a little's too much
How many, how many, say I?
Go on and say yes, and really mean no
Would you rather guess, when you just don't know?
And then say I love you, but aren't willing to show
How many, how many, say I?
How many, how many, say I?
How many say I? How many say I?
How many say I? How many say I?
Say live and let live, so quick to judge
Slow to forgive, when you're holding a grudge
Don't always believe, all you need is love
How many, how many, say I?
How many, how many, say I?
How many, how many, say I?
How many say I? How many say I?
How many say I? How many say I?
How many say I? How many say I?
How many say I? How many say I?
Have you ever looked down when a homeless walked by?
Or changed the channel when you saw a hungry child?
Know something to be true, and then deny it
How many, how many, say I?
How many, how many, say I?
How many, how many, say I?
How many say I? How many say I?
How many say I? How many say I?
How many say I? How many say I?
How many say I? How many say I?
