Heartbreak Station

Cinderella

Waiting at the station
Tears filling up my eyes
Sometimes the pain you hide
Burns like a fire insideLook out my window
Sometimes it's hard to see
The things you want in life
Come and go so easilyShe took the last train out of my heart
She took the last train

And now I think I'll make a brand new start

She took the last train out of my heartWatching the days go by

Thinking 'bout the plans we made

The days turn into years
Funny how they fade awaySometimes I think of those days
Sometimes I just hide away

Waiting on that 9:20 train

Waiting on a memoryShe took the last train out of my heart She took the last train

And now I think I'll make a brand new start

She took the last train out of my heartMy lady's on the fly

And she's never coming back My love is like a steam train

Rolling down the tracks yeah, yeahShe took the last train out of my heart She took the last train

And now I think I'll make a brand new start

She took the last train out of my heartShe took the last train, out of my heart

She took the last train

And now I think I'll make a new start

Last train out of my heart
