

Birds

Crystal Castles

Layers of lace

Held in place

Diagnosed, you're a ghost Show up, throw up into the womb

Show up, throw up into the womb

Show up, throw up into the womb

Show up, throw up into the womb Pull out their eyes

Apologize

Emerald waves to lubricate Show up, throw up into the womb

Show up, throw up into the womb

Show up, throw up into the womb

Show up, throw up into the womb
