Say Hi

Boomkat

I wish I could spy on you
See inside your brain
Take away the painI wish I could spy on you
See inside your brain
Take away the painSittin' here
Thinkin' 'bout things
Wondering what will be (what will be)
So confused
Feel so used
Am I being screwed
Am I screwing youSay hi
Hi to me
'Cause I'm dying not to feel a thing
Say hi
Hi to me
Cause I know I made you feel usedI wish I could spy on you
See inside your brain
Take away the painIt's just a small case of paranoia
I do enjoy you
Especially when your pants are on the ground
What will be
Oh maybe
Take a look at meSay hi
Hi to me
Cause I'm dying not to feel a thing
Say hi
Hi to you
Cause I know I made you feel used
Say Hi
Hi to me
Cause I'm dying not to feel a thing
Say hi
Hi to you
Cause I know I made you...Sitting and thinking
About those days
When we spent running around
In circles
Was it worth it
I ask myself this everyday

Why I'm staying so long
We're not together now
And I'm happy when you just stop to say helloSay hi
Hi to me
Cause I'm dying not to feel a thing
Say hi
Hi to you
Cause I know I made you feel used
(I can't stop the rain from falling)Say Hi
Hi to me
(I can't stop my tears from dropping)
You never did it
You couldn't say hello
(I can't stop the rain from falling)Say hi
Hi to me
(I can't stop my tears from dropping)
You never did it
You couldn't say hello(I can't stop the rain from falling)
(You'll never ever be alone)
(I can't stop my tears from dropping)
(I can't stop the rain from falling)
(You'll never ever be alone)
(I can't stop my tears from dropping)When you know
When you go
You'll never ever be alone
(I can't stop the rain from falling)
(I can't stop my tears from dropping)
(You'll never ever be alone)When you know
When you go
You'll never ever be aloneWhen you know
When you go
You'll never ever be alone
