

# Lookin' for a Good Time

## Lady Antebellum

Hey, what ya drinking baby? Girl you're beautiful, you're 'bout near perfect  
But I bet somebody's already told you that  
Name your poison, name your passion  
'Cause a boy like me just couldn't help but ask Keep on talking to me baby  
I'm hanging on your every word  
Keep those drinks a coming  
Maybe we'll both get what we deserve How 'bout baby we make a promise  
And not promise anything more than one night?  
Complicated situations only get worse in the morning light  
Hey, I'm just looking for a good time Put in a long hard week doing this 9 to 5  
And you're just the girl to get that off my mind  
You shouldn't have worn that dress, you shouldn't dance like that  
You got this little heart of mine in overdrive I sure love this conversation  
The band is good, the music's loud  
But would you get the wrong impression  
If I called us a cab right now? Oh yeah! How 'bout baby we make a promise  
To not promise anything more than one night?  
Complicated situations only get worse in the morning light  
Hey, I'm just looking for a good time Go ahead and lie to me and pull me close  
Tell me that you love me even if you don't  
The rule is don't you ever even talk about forever  
But you never say never in life! How 'bout baby we make a promise  
To not promise anything more than one night?  
Complicated situations only get worse in the morning light  
Hey, I'm just looking for a good time  
Hey, I'm just looking for a good time!
