

# Hearts I Leave Behind

## Pete Scobell Band

I won't find what others rarely find  
Conscious clean and peace of mind  
Life like a book I'm proud to sign  
Written on hearts I leave behind  
I wanna roll, wanna roll with my own design  
With your own faith that intertwined  
I hoping down finish line  
In the hearts I leave behind God lets me choose where I go when I die  
Then lay my head down where love resides  
And I'll never have to say goodbye  
I'll live in the hearts I leave behind I wanna leave a mark to put on mankind  
And I was here that don't fade with time  
I see it a good place, it's only mine  
The hearts I leave behind Save it for the hearts I leave behind
