

Earthshaker Rock

Warlock

Hey you, whatcha gonna do
Whatcha gonna do tonight?
Stand up and let it out

Metal rock is here tonightIn the streets a wave of heat
Burning half the town

Finish the day in a rocking good wayOut of hell and out of fire
The night is filled with dark desire

Metal sounds will take you higher
Listen to the beat all through the nightWhen you get here

You will see the light
And sounds will heat up

The heat of the nightEarthshaker rock
Come on feel earthshaker rock

Let me make you feel alright

State of shock, metal rock, guitarHigher, higher
Set your light on fire

You get higher

Bang your head, bang your headWhen you get here
You will see the light

And sounds will heat up

The heat of the nightEarthshaker rock
Heat of the night

Earthshaker rock

Come on, I make you feel alrightEarthshaker rock
Earthshaker rock

We must feel earthshaker rock

Come on make you feel alright

State of shock, metal rockEarthshaker rock
Earthshaker rock

You're on, you're on to metal rock

State of shock, metal rock

Earthshaker rock, metal rock
