Melt (feat. Kilo Kish)

Chet Faker

[Verse 1: Chet Faker]
Help me breath, you're breaking up my speech
While you smile at me, you got the whitest teeth
You won't leave me alone, every time I rest you're in my head
Breaking bones, Breaking bones
You make me lose my time, fall all over the words
I'm not the kind of one to lose myself in the hunt
You gotta move and your body is the shape I want
And everything you say is on fire
You've got the easiest position to destroy my life
All you have to do is arrive[Hook: Chet Faker]
Melt my happiness, some kind of fucked up mess
Looking out for you is a kind of waiting game that leaves me running circles into my brain
Help, my loneliness will take no part in this
Oh, Oh, Overdose[Verse 2: Kilo Kish]
Wasting my time with you, no
This only way to sunshine in my watch
Wasting my time with you, stop
I'll be erasing my mind, what you've got
Too much nerve coming into here
Turning loose and make a murder fear
God damn, boy, your so hot
It's no excuse to make my pulse stop
I need a bit of coffee and a warm sun
Dusty ideas only half spun
The verse I'm singing only half sung
Half flirting and I'm half sprung
Didn't mean to let it drift this far
Playing hard to get, you're playing your guitar
Damn, you should be so shy
Been working hard to drop me inside
I've had dreams of breaking all, breaking all my bones
Before I break it off, I break it off alone[Hook x2: Chet Faker]
Melt my happiness, some kind of fucked up mess
Looking out for you is a kind of waiting game that leaves me running circles into my brain
Help, my loneliness will take no part in this
Oh, Oh, Overdose
