Mind Control

A Place to Bury Strangers

You know you've taken me over
but now you want me to leave
and I can sometimes do bad things
don't make me beg for it pleasecuz you do
what I love
and I was only saying when we're alone
in my arms
I wish you knew how it feels to hold you up
late at night
like its 10am
I want you here
it's unreal
and now I let you take me over
