

Breaking Me Up

Raised Fist

All this is breaking me
Same old story, same old history
And I'm wondering, will this ever end?
Will I be able to trust in my friends? Always shared everything with you
Answer with a backstab, that is what you do
Thinking of breaking this to pieces
Well, it's time for a longer recess
(Recess) All this is breaking me
So far from reality
Cannot picture myself in this mess
Cannot pass by the distress Your smile seem like fake
When I'm talking loud about the break
No words can forgive you now
Running from my dreams, this time more proud Your bad words cannot touch me
Back with more strength and new energy
And this time, it's for real
Finally, I've realized how you make me feel All this is breaking me
So far from reality
Cannot picture myself in this mess
Cannot pass by the distress I've shared everything with you
Answer with a backstab, that is what you do
Thinking of breaking this to pieces
It's really time for a longer recess
(Recess) All this is breaking me
So far from reality
Cannot picture myself in this mess
Cannot pass by the distress All this is breaking me
So far from reality
Cannot picture myself in this mess
Cannot pass by the distress All this is breaking me
So far from reality
Cannot picture myself in this mess
Cannot pass by the distress
