

# Everytime You Leave

## Karmah

Every time you leave  
You tear the soul from me  
I die a little more  
Each time part  
I can't control my dreams  
My heart can't seem to learn  
To turn and lock its door  
When you return  
I know that you'll come back again  
As soon as you get blue  
And I know what will happen then  
One kiss and I'll give in to you  
Every time you leave  
You tear the soul from me  
But I want to live so I'll forgive  
Every time you leave  
Every time you leave  
You tear the soul from me  
But I want to live so I'll forgive  
Every time you leave
