

# Older Guys

## The Flying Burrito Brothers

I don't ever think about tomorrow  
Whether or why is all on another day  
And I think it's been said by somebody up ahead  
The older guys tell me what it's all about  
The older guys really got it all worked out  
Since we got the older guys to show us how  
I don't see why we can't stop right now

It's so cold staying living down on the ocean  
Dead on the beach is where I want to rent my home  
And I think it's been said by somebody up ahead  
The older guys get the ladies with their style  
The older guys squeeze 'em until it makes them smile  
What's the sense of looking like a cop on the beat  
What's the sense of looking like a girl on the street
