

Dream

Lil Rob

Baby i jus had a dream
That one day me and you will be
livin da life that i imagine to see
together forever no one can do better
Baby i jus had a dream
that one day you and me will be
livin the life that i imagine to see
loving you always but i gotta get back to da street
i catch myself day dreamin of thinkin of you and all the reasons
why i love you for all seasons
i could never get enough
baby your my sugar rush
baby your my sugar plum
sweeter than bubble gum
we've become one and one is what we become
and i wouldn't trade it for nuthin else
cuz you're really sumthin special
you are sumthin else
no my name isn't Martin Luther King
but i had a dream and i love what i seen
baby i seen you and me livin out a fantasy
baby i jus had a dream that one day me and you will be
livin the life that i imagine to see
together forever no one can do better
baby i jus had a dream that one day me and you will be
livin the life that i imagine to see lovin you alwayz but i gotta get back
to these streets its time to go and chase the payment
i gotta go out and pavement tho i know i hardly say it
i could never get enough baby you care just too much baby ur my cutie pie you are the reason why
I could never say goodbye baby yes its just you and i
