

Danny Says

Less Than Jake

Danny says that he got caught up
In all the talk of how it used to be,
And he says "i never used to mind"
That same lame line "it's just you and me"
Danny says that he's so boring now
Since he figured out that bakc in the day
Really say "...how I remember this,
And don't give a shit about what you have
To say."He's only 19 burnt out on the scene
And just getting by on it's memories
