

# Bandages (Album) - Make Up The Breakdown

## Hot Hot Heat

Bandages on my legs and my arms from you  
Bandages, bandages, bandages  
Up and down on my legs my arms from you  
Bandages, bandages, bandages These bandages cover more than scrapes, cuts and bruises from regrets and mistakes  
I've been hoping your moping around the street again  
I've been tripping from sipping the dripping dirty water tap  
I've been poking a voodoo doll that you do not know I made  
These bandages are anonymity  
I've been shaking from making an awful decision  
I've been running and running  
Feels like my head is spinning round and round, around, around, around, around, around Bandages on my legs and my arms from you  
Bandages, bandages, bandages  
Up and down on my legs and my arms from you  
Bandages, bandages, bandages I've been hoping your moping around the street again  
I've been tripping from sipping the dripping dirty water tap  
I've been poking a voodoo doll that you do not know I made  
For you, of you, let's see what needles do  
I've been shaking from making an awful decision  
I've been thinking I'm drinking too many drinks all by myself  
I've been running and running  
Feels like my head is spinning round and round, around, around, around, around, around Bandages on my legs and my arms from you  
Bandages, bandages, bandages  
Up and down on my legs and my arms from you  
Bandages, bandages, bandages  
Bandages on my legs and my arms from you  
Bandages, bandages, bandages  
Bandages, bandages, bandages Don't worry now, don't worry now, don't worry cause it's all under control  
Don't worry now, don't worry now, don't worry cause it's all under control  
Don't worry now, don't worry now, don't worry cause it's all under control  
Don't worry now, don't worry now, don't worry cause it will all turn around,  
Around, around, around, around, around, around, around Bandages on my legs and my arms from you  
Bandages, bandages, bandages  
Up and down on my legs and my arms from you  
Bandages, bandages, bandages  
Bandages on my legs and my arms from you

Bandages, bandages, bandages  
Up and down on my legs and my arms from you  
Bandages, bandages, bandages  
Bandages, bandages, bandages  
Bandages, bandages, bandages
