

# Monique

## Energy Flash

When they see Monique  
Perhaps they'll understand  
Monique, Monique  
I've hungered so for this  
Monique, Monique  
The wonder of your kiss  
Monique, Monique  
Was Paris always there  
Monique, Monique  
I didn't know or care  
But why am I dancing  
My friends may well demand  
I'll tell them Monique  
Monique held my hand  
And when they see Monique  
Perhaps they'll understand  
Monique, Monique  
Was Paris always there  
Monique, Monique  
I didn't know or care  
But why am I dancing  
My friends may well demand  
I'll tell them Monique  
Monique held my hand  
When they see Monique  
I'm sure they'll understand
