make-out song

Buck 65

Honey and hormones
You're holding my hand
Sugary slow-jams
Making love on the sand
Well, excuse me while I throw up
Take a second to interrupt
All this round about shit just sucks
I'll be blowing the candles out
Lights on, it's wrong
But it's my make-out song
We've been holding back too damn long
Well, the sweet talk?s great but it's getting late
And I wanna just get it on
This is my make-out song
Don't be getting your ego on
'Cause I like your lips but this foreplay kiss
Has been goin' on way too long
Get with my make-out song
Allergic to flowers
They wilt and they die
And drip in the shower
Regardless that I'd
Much rather you just hang tough
A little bloody and beaten up
Let's get animalistic rough
We'll be ripping the clothes right off
Backseat, not sweet
But it's my make-out song
We've been holding back too damn long
Well, the sweet talk?s great but it's getting late
And I wanna just get it on
This is my make-out song
Don't be getting your ego on
'Cause I like your lips but this foreplay kiss
Has been goin' on way too long
Get with my make-out song
When you lay me down
On your pillow now
Sprinkle roses on the sheets

I get the creeps
You're finally touching me
And you realize I'm asleep
I'm asleep
Well, excuse me while I throw up
Take a second to interrupt
All this round about shit just sucks
I'll be blowing the candles out
Lights on, it's wrong
But it's my make-out song
We've been holding back too damn long
Well, the sweet talk?s great but it's getting late
And I wanna just get it on
This is my make-out song
Don't be getting your ego on
'Cause I like your lips but this foreplay kiss
Has been goin' on way too long
But it's my make-out song
We've been holding back too damn long
Well, the sweet talk?s great but it's getting late
And I wanna just get it on
This is my make-out song
Don't be getting your ego on
'Cause I like your lips but this foreplay kiss
Has been goin' on way too long
Get with my make-out song
