

Like a Lover Like a Song

April Wine

(myles goodwyn)

Published by goody two tunes, inc. - bmiI don't wanna talk about it anymore

When there's nothin' goin' on, and somethin' should be done

Cause we believed for nothin' it seems

And now it's ended broken-hearted

And as anyone can see, there was no way we'd agreeAnd we can get there if we try

And I wanna live if I have to die

And it'll come so sweet and softly, like a song

And really turn me on, like a lover like a song

Really turn me on, turn me onIt seems there's somethin' deep inside of you

And I can tell that you've been lonely

And you've had hard times too

Cause we believed for nothin', it seems

And now it's shattered all apart, like a broken heart

It's the end, it's a startAnd we can get there if we try

And I wanna live if I have to die

And it'll come so sweet and softly, like a song

And really turn me on, like a lover like a song

Really turn me on, really turn me onAnd there's somethin' inside that's been burnin'

And there's somethin' inside I've been learnin'

And I can't hide cause it's all over me

And deep inside of you, inside of you

Deep inside of you, inside of youI don't wanna talk about it anymore

When there's nothin' goin' on

And somethin' should be done

Cause we believed for nothin', it seems

And now it's ended broken-hearted

And as anyone can see, there was no way we'd agreeAnd we can get there if we try

And I wanna live if I have to die

And here's a chance for you to see

What this pain's been doin' to me

And I wanna lose it everyone

And have a heartache on the run

And we can get there if we try

And I wanna live if I have to die

If I have to die, if I have to die
