Truth Serum

Dishwalla

Trust me
You're not angry at me, you're just angry
And I'm just standing here while you're down
Now I see the real world when it's too late
When it's too late to matter now
Truth serum is in your veins
Saying things I can't explain
Truth serum is in your veins
Saying things I can't explain
They always say, truth will find a way
It makes you sick 'cause you can't take it
They always say, the truth will find a way
Truth serum is in your veins
Now I see you strip down never need for
Have I ever seen you drown?
'Cause your not angry at me, you're just angry
And I am just standing here while you're down
Truth serum is in your veins
Saying things I can't explain
Truth serum is in your veins
Saying things I can't explain
They always say, truth will find a way
It makes you sick 'cause you can't take it
They always say, the truth will find a way
Truth serum is in your veins
Truth serum is in your veins
Saying things I can't explain
You tell me more [Incomprehensible]
They always say, truth will find a way
It makes you sick 'cause you can't fake it
They always say, truth will find a way
They always say, truth will find a way
It makes you sick 'cause you can't take it
They always say, the truth will find a way
Truth serum is in your veins
