The Creature

Elf Power

Careful where you hide
Secrets come alive
Walk right by the evil things
Slip into the nightI am the creature and I'll roam
I've lived a thousand times before
No longer waiting at your door
I am the creature and I'll roamAll across the land
The specter holds your hand
Though her face you cannot see
Her thoughts you'll understandI am the creature and I'll roam
I've lived a thousand times before
No longer waiting at your door
I am the creature and I'll roamCome on under
I'll be waiting right beneath your feet
Time is over, we're forgotten
Lightning fills the seaHave you ever heard
The noises and the words
Calling out to lure you
To the boiling underworld?I am the creature and I'll roam
I've lived a thousand times before
No longer waiting at your door
I am the creature and I'll roamCome on under
I'll be waiting right beneath your feet
Time is over, we're forgotten
Lightning fills the seasLightning fills the seas
Lightning fills the seas
