Antarctica

Men Without Hats

Antarctica, Antarctica
Antarctica, Antarctica
Ice Age is here, right in your town
Antarctica, look what you've doneAnd I, I feel like I've cheated your scheme
And I, I feel like you really know what I mean
Nightfall's heartbeat, the street's in a mess
On reflector, the beach is endlessAnd I, I feel like I've cheated your scheme
And I, I feel like you really know what I meanIt's my turn, it's my turn
Antarctica, AntarcticaNo Day, no night, and always the sound
Ice pressure [unverified]
(Antarctica)
It's me that's foundAnd I, I feel like I'm really part of your scene
And I, I feel like you know what I mean
Pictures moving, and always the whirls
Antarctica, where are you now
(Antarctica)And I, I feel like I'm really part of your scheme
And I, I feel like you're losing your dream
Antarctica, Antarctica
Antarctica, AntarcticaAnd I, I feel like you know what I mean
And I, I feel like I'm really lost in your seam
It's my turn, it's my turn
It's my turn, it's my turn
It's my turn, it's my turn
