

# Today Is the Day

## Stuck In Your Radio

I need your attention  
And a little of your time  
I wont fail to mention  
That the problem here lies deep insideTake my word for what its worth  
I believe in youI'll pick you up when you fall down  
If you meet me halfway  
Two heads can figure this out  
In numbers there is  
Strength to overcome  
Any and all obstaclesLife's repetition  
Only you can change its course  
Identify the issue  
Take initiative and break its curseTake my word for what its worth  
I believe in youI'll pick you up when you fall down  
If you meet me halfway  
Two heads can figure this out  
In numbers there is  
Strength to overcome  
Any and all obstacles  
Together we'll overcome!Today is the day!  
I believe in myself  
Today is the day!  
I'll defeat all my enemies  
Today is the day!  
I won't give up this time  
Today is the day!  
That I'll take what is mines  
Today is the day!  
I'm finally over you  
Today is the day!  
When I think of me first!  
Today is the day!  
Of the rest of my lifeToday is the day!  
Today is the day!I'll pick you up when you fall down  
If you meet me halfway  
Two heads can figure this out  
In numbers there is  
Strength to overcome  
Any and all obstacles

Together we'll overcome!
