# Take Me

## Tiesto

Waiting for the light to change from red
Thinking over all the things you said to me, you said to me
All your dreams are dying in the sun
Pretty soon there'll be nowhere left to run away, to run awayPacked your bags to leave by the morning
Destination far off and foreign
It's never or nowBaby won't you take me
Baby won't you take me with you, with you
Baby won't you take me
Baby won't you take me with you, with you
Cause I don't wanna be alone tonight
I don't wanna be alone tonight
Baby won't you take me
Baby won't you take me with you, with youCounting up the reasons I should stay
Not enough to wait another day to go, it's time to go
Memories of a life I leave behind
Take a souvenir to remind me of, the ones I loveFeel my heart it beats like a stopwatch
Running out of time with each tick tock
It's never or nowBaby won't you take me
Baby won't you take me with you, with you
Baby won't you take me
Baby won't you take me with you, with you
Cause I don't wanna be alone tonight
No I don't wanna be alone tonight
Baby won't you take me
Baby won't you take me with you, with youLet's go far away
Let's go far away
Away from here
Somewhere there's no cars
We can see the stars
And the skies are clearBaby won't you take me
Baby won't you take me with you, with you
Baby won't you take me
Baby won't you take me with you, with you
Cause I don't wanna be alone tonight
No I don't wanna be alone tonight
Baby won't you take me
Baby won't you take me with you, with you.
