Listen People

Herman's Hermits

Listen people to what I say
I say everybody's got to have their day
And don't you know that, everybody's got to love somebody sometime
Everybody's got to win a heart, everybody's got to love somebody sometime
When you do, I hope you never part
I once found love, found love just like you
But then he came, he might come to you
And don't you know that, everybody's got to lose somebody sometime
But everybody can part, everybody's got to lose somebody sometime
So take care that you don't lose your heart

Take my advice and you'll always find, you'll be happy all of the time
Take my advice and you will see, you'll be happy as you can be
Listen people to what I say
I say everybody's got to have their day
And don't you know that, everybody's got to love somebody sometime
Everybody's got to win a heart, everybody's got to love somebody sometime
When you do, I hope you never part, you never part
Listen people, listen people
