

Jungle

The Qemists

In a jungle

In a jungle

In a jungle

Here in a jungle we're taking it over

Here in a jungle we're taking it over

Torn lights, high times

Blaze green, no crying

Way this, all mine

Make a boom, think twice

No season, sunrise

See these faders, these eyes

Get in this, you know lies

Going hard every night

Jungle

Let's get see, 'cause these fire let it spit

Making forties middle full, we do it like this

Come bounce it, what we see is king's ring

Can you see this, you?

It's taking over this

In a jungle

Taking over this, yeah

In a jungle

In a jungle

In a jungle

Here in a jungle we're taking it over

Here in a jungle we're taking it over

We're going for in a tour

I'm in, about to smash the henges

Of the night club, and cruciate it whole

'Cause that close we come

Swimming, so finning, in season

Need some space to go

... Christiano

Can't lean us, find us more

Jungle

Tryna stop, 'cause after some check my eyes drop

But anyway, less get put in the chop

Everyday everyone talking for . me

I can never give up

And soon left there with my people getting crank

In a jungle

In a jungle

In a jungle

Here in a jungle we're taking it over

Here in a jungle we're taking it over

In a jungle

In a jungle
