

Put Your Hands in Mine

Chris Delvan Gwamna

I can see
fear in your eyes
I can hear
confusion in the words you speak
let me tell you now
If itâ€™s true love that youâ€™re looking for
I know a place
where the Rivers never cease to flow
let me take you to the place I know
let me take s you to the one I love

would you put your hands in mine
put your hands in mine

No one knows the way
That leads unto eternal life
No one seen his face
But the son who came from heaven above
If you let him in
youâ€™ll know the peace that he can give
someone got to lead you there
As do many of the good things in life

so let me take you the place I know
so let me bring you to the one I love
would you put your hands in mine
would you put your hands in mine
would you put your hands in mine
would you put your hands in mine
oh oh put your hands in mine
would you put your hands in mine

I know the light
that the world so dearly needs to see
Iâ€™ve seen the hope
That the prophets prophesied about
itâ€™s why I tell you now
if itâ€™s this love that youâ€™re looking for

Then I know the place
where the Rivers never cease to flow

so let me take you to the place I know
and let me bring you to the one I love
would you put your hands in mine
would you put your hands in mine
oh oh would you put your hands in mine
would you put your hands in mine
would you
would you
would you

put your hands in mine
let me take you to the place I know
lemme bring you to the one I love
To the place where the waters never cease to flow
to the place of love
