Meant To Be

Yngwie Malmsteen

I've been searching all my life
I've been hurting living lies
In the dark trying to find true loveIn my heart
No time to lose
Goodbye to bluesWhy can't you see
We were meant to be
We're walking through fire
We're stronger than steelWhy can't you see
We were meant to be
We're walking through fire
We're stronger than steelJoined our souls now we're free
Reached our goals we finally see
Yesterday we lived in sorrow
Today for tomorrowNo time to lose
Goodbye to bluesWhy can't you see
We were meant to be
We're walking through fire
We're stronger than steelWhy can't you see
We were meant to be
We're walking through fire
We're stronger than steelWalking through fire
We're stronger than steelNo time to lose
Goodbye to bluesWhy can't you see
We were meant to be
We're walking through fire
We're stronger than steelWhy can't you see
We were meant to be
We're walking through fire
We're stronger than steelWhy can't you see
We were meant to be
We're walking through fire
We're stronger than steelWhy can't you see
We were meant to be
We're walking through fire
We're stronger than steelWhy can't you see
We were meant to be
We're walking through fire
We're stronger than steelWhy can't you see
We were meant to be
We're walking through fire
We're stronger than steelWhy can't you see
