

Get Out

[Mitchel Musso](#)

You spin around like a broken record
It plays your name every time the needle skips
It's been that way since the last December
I can't live like this anymore
You're stuck inside every conversation
Yes I know that you're really good and gone
But I'm a slave to this obsession
How can I move on?
You're in my thoughts, in my head
In my heart, in my dreams
And I wish you would stop haunting me
Get out, get out, I can't take it no more
Breathe in, breathe out
'Cause I die a little every time I think about you
Get out, get out 'cause I'm going crazy
I scream and shout
I try everything but you're still here and I can't stop missing you
The way I feel every time you're with me
How you say it all without a word
I keep hearing time heals, everything
So tell me why does it still hurt
Like you only just told me goodbye
And I can't get you out of my mind
Get out, get out, I can't take it no more
Breathe in breathe out
'Cause I die a little every time I think about you
Get out, get out 'cause I'm going crazy
I scream and shout
I try everything but you're still here and I can't stop missing you
I hate to love you, I hate to let you go
You're good at leaving but I'm no good alone
Get out, get out, I can't take it no more
Breathe in breathe out
'Cause I die a little every time I think about you
Get out, get out 'cause I'm going crazy
I scream and shout
I try everything but you're still here and I can't stop missing you
Get out, get out
Breathe in breathe out

You spin around like a broken record
It plays your name every time the needle skips, skips
Skips, skips, skips, skips, skips, skips, skips
