

Kill Rock Stars

[NOFX](#)

Kill the rock stars, how ironic, Kathleen
You've been crowned the newest queen
Kind of like the punk rock Gloria Steinham
Can't change the world by hating man
Can't change the world by blaming men Just 'cause I don't know the reason you're so pissed
Don't dare tag me misogynist
I thought the goal here was mutual respect
Not constructing a separate sect I wish I could have seen Courtney
Demonstrate some real misogyny
Can't change the world by hating men
